### Discovering the possibilities of automation

isgSearch contacted Kyloe during their search for a solution to reduce manual errors and generate contracts for e-signature from Bullhorn. Our solution was Kyloe AwesomeDocs: our end-to-end document management solution for Bullhorn has been used to generate over 2.5 million documents by our clients worldwide.

### isgSearch challenges

- Consultants spending too much time generating client and candidate agreements manually.
- Manual processes leading to more opportunities for human errors.
- By sending documents for signature manually, signed contracts were not being attached to the right records within Bullhorn.
- A lot of time being wasted tracking unsigned documents.

### isgSearch objectives

- Cut operating costs by automating document generation processes and implementing an e-signature solution.
- Improve document accuracy.
- Track the status of documents in Bullhorn and store them securely in the cloud, forever.
- Work from a single source of truth and make auditing easy.
- Customise documents and clauses based on clients, candidates, placements and facilities.

### Why Kyloe AwesomeDocs?

From CVs to contracts, and terms of business to non-disclosure agreements, Kyloe AwesomeDocs is the end-to-end document automation system designed with recruitment in mind and has been used to generate over 2.5 million documents by our clients.

### Benefits

#### Fill more placements and business

Reduction of manual effort means quicker submission of candidates, beating out competitors and impressing clients with quality talent.

#### Improve client and candidate experience

Professionally branded and accurate documents that present a consistent and reliable experience that people want to interact with. Plus, recruiters have more time to spend building relationships with clients and candidates.

#### Reduce compliance risk

Improve document accuracy (like contracts and terms of businesses), and reduce the risk of incorrectly placing unqualified candidates.

#### Cut operating costs

Employees spend less time preparing, sending, chasing, and saving documents, and user-based e-signature subscriptions are eliminated.
